Ms. Gi Yong Kim served as a public servant at the Ministry of Environment and the Wonju Regional Environmental Office since 1990, where she assessed strategic environmental impact of development master plans and development projects and small-scale environmental impact, consulted environmental impact assessments, and handled work related to chemicals, biocides, household chemicals, waste management, and protected areas such as nature parks and wetlands. Based on such a wide array of experience, Ms. Kim has gained a deep understanding of the relevant systems, laws, and practices.

In particular, Ms. Kim has extensive experience in resolving various issues identified during the environmental assessment process, including the site selection, suitability of land use plans, biodiversity, topography, ecological axis, and natural landscape in numerous development projects, including urban development, industrial and tourism complex development, wind and solar energy development, transmission line engineering, sports facilities installation, waste treatment facilities construction, road construction, mineral extraction, public waters reclamation, and port development.

Ms. Kim graduated from Yonsei University with a bachelor's degree in Environmental Studies and earned a master's degree from Yonsei University Graduate School of Environmental Studies. She started her career at the Ministry of Environment's Land Environment Assessment Division, through the Natural Policy Division, the Nature Parks Division (2010-2017), Wonju Regional Environmental Office's Chemical Substances Control Division and Environmental Assessment Division (2017-2021), and the Chemical Products Control Division (2021-2022). Throughout her service, she was honored with the Minister of Environment's Commendation, the Prime Minister's Commendation (as Exemplary Public Servant), and the Service Merit Medal from the government of the Republic of Korea.
