Mr. Yeong-Il Kang is currently a senior advisor at Shin & Kim LLC, and his practice focuses on transportation SOC such as vehicles, mobility and railway, legislative and government affairs, aviation and logistics, and overseas construction.

Mr. Kang passed the Higher Civil Service Examination(23rd) and served as director general of aviation policy bureau, director general of the land transportation/road bureaus and deputy minister for logistics & transportation of the Ministry of Construction & Transportation(the "MOCT") and as deputy minister for transportation Policy of the Ministry of Land, Transport and Maritime Affairs(the "MLTMA"). After retiring from civil service, Mr. Kang served as president of the Korea Real Estate Research Institute(the "KRERI") and representative director of New Seoul Railroad Co., Ltd.("NSR"). Then, he returned to civil service as Chairman & CEO of the Korea National Railway(the "KR") and President of the Korea Railway Industry Association.

During his public service career, Mr. Kang planned and led various projects related to transportation and aviation, including advancement of public transportation, expansion of advanced transportation systems such as ITS, reorganization of the automobile management system, innovation of the national logistics system, promotion of the construction of highways and airport facilities, and expansion of the international air route network. As the Chairman of the Korea National Railways, Mr. Kang oversaw major rail network construction and railroad asset development projects, such as the commencement of operation of the Honam High-Speed Rail and Suseo High-Speed Rail, and the completion of the high-speed rail between Wonju and Gangneung. Mr. Kang also served as the chairman of the Korea Railway Association, where he established a cooperation system among public institutions, businesses, and research institutions, and successfully helped Korean railway businesses make inroads into overseas markets.

In the private sector, Mr. Kang provided theoretical support for the improvement of real estate valuation techniques and related systems during his tenure as Director of the Korea Real Estate Research Institute and accumulated field experience in the construction sector and private investment projects while serving as CEO of New Seoul Railroad Co., Ltd.
