Kiyoung Nam is a senior foreign attorney at Shin & Kim who concentrates on eDiscovery, internal investigation, forensic investigation, data management, and data privacy.

He has served clients in the management of data in litigation, arbitrations, investigations, and regulatory responses. His expertise covers a range of activities across the EDRM phases, including textual analysis for cross border matters. He has led and directed multiple computer forensic investigations for global companies and reported on findings. He also advises clients on data collection, transfer and data privacy risks in Korea involving PIPA.

He has served as subject-matter expert in helping customize eDiscovery technology solutions to conduct sophisticated data analyses, optimize search methodology, and design custom technical procedures and reporting.

工作经历

2025	Shin & Kim LLC
2022-2025	EY Han Young LLC
2019-2022	Alvarez & Marsal
